

I want YOU to be RICH®

To be rich is our birthright, yet many live poorly!

Want to be rich? First, let us be clear about what constitutes RICHNESS?

15 Factors that constitutes Richness

1. A Positive Mental Attitude
2. A Happy Life
3. Open Mindedness
4. Financial Soundness
5. Free from Fear and Freedom to Choose
6. Forward Looking
7. Faith In Self
8. A Life of Continuous Growth and Service
9. Physical Wellness
10. Intellectual and Emotional Maturity
11. Engage in the Labor of Love
12. Devoted to the Importance
13. Live a Purposeful Life
14. Live Harmoniously with Others and with the Nature
15. Spiritual Richness

There are Three Types of People Financially:

1. The poor who believes that the boss, the government will take care of them
2. The middle class who believes in working hard, live below their means, save money, become a passive investor and invest not to lose
3. The rich who believes in working hard, educating themselves continuously, leverage on the talents and the hard work of others, and be an active investor and invest to win

Which category do you belong to?

Let us reflect, "Can you become rich by continuously living and doing what you are living and doing now?" "5 years from now, what sort of significant improvement you can see of yourself?"

If your answer is NO, will you be open minded enough to listen to what I have to share with you? Call me for a non-obligatory face-to-face discussion and I shall show you exactly how.

Let me make you 2 promises:

1. You will not be asked to commit to anything during the face-to-face meeting;
2. Unless you feel that I truly can add value to you and your richness, there will be no further meeting.

Lastly, I want to assure you that it is definitely worth your time and effort to come forward.
