

An Important Choice

This is an important choice of life.

In every moment, we have TWO different choices we can make.

Many times, many of us, forget about the '2nd way.'

Let me explain.

For the most part we are 'sold' a specific mass mindset.

Our institutions, environment, and media all have a hand in it.

Included in this 'mass mindset' is:

Worry

Doubt

Fear

Anxiety

Guilt

Blame

Busy

We doubt ourselves too much, worry too much, and live too often in fear.

Many times we grew up in this environment and forgot we have a choice.

Pick up any biography. Read any success story. Those who have unleashed their greatness DID NOT 'live' in this mindset.

Not that they did not have fears, but they did not 'live' there.

"Well, where do they 'live'?"

Good question.

They live in a LAND of 'GREATNESS NATION'.

When you 'live' in 'GREATNESS NATION', your mindset moves to:

Growth

Integrity

Courage

Power

Clarity

Understanding

Focus

Belief

Persistence

Service

It is very easy to live in fear and doubt.

I've been working on myself for years, reducing the amount of time I spend there.

Let me ask you this question.

Where do you spend most of your time?

In the mindset of fear or living in the land called
'GREATNESS NATION'?

Do this today.

Increase your awareness.

When your shoulders are about to slump, your facial
expression goes sour and you're ready to get upset, make a
different choice.

Choose courage. Choose power. Choose to live in Greatness
Nation.

Understand this. Your best self is ALWAYS welcome you there.

In this moment ONLY, believe in yourself. Right now!

Great job! Have a great day.
