

## Value Add and Richness

The happiest and most successful people in the world all have a strong desire to help others.

They have a desire to add value, and to make a difference in everyone's life that they encountered.

They are GIVING more LIFE to others.

When's the last time a 'stranger' said, "Thank You ", because you entered their life? This will happen when you start becoming a value adder for others.

If you study depressed, frustrated individuals and then study happy, vibrant individuals, you'll see ONE big difference.

People who live a depressed life live with an INWARD focus.

Those who are happy and radiant live with an OUTWARD focus.

Go against the tide.

The tide says, "What's in it for me?"

Going against the tide says, "**Who can I add value to today? Who can I bless today?**"

Give yourself away more today and everyday.

You'll FEEL BETTER about yourself and you'll start planting seeds of richness that will turn into a harvest when the time is right.
